Re: Acceleration of Broadband Deployment  
WC Docket No. 11-59; WT Docket Nos. 13-238, 13-32;

Dear Ms. Dortch:

In its July 29, 2014 *ex parte* letter filed in this Broadband Acceleration docket,<sup>1</sup> AT&T attached Exhibits A and B, which represent examples of small cell deployments. AT&T supplements the record in this docket by attaching those same Exhibits to this letter, with the identification and dimensions of each piece of small cell equipment. As AT&T has mentioned in its *ex parte* filings and comments, these pictures represent examples only, as configurations depends on a number of factors, including the needs of the area, the spectrum held by the entity operating at the facility, and the evolution of the equipment.

Pursuant to Section 1.1206 of the Commission's rules, this notice will be filed via ECFS with your office. Please contact me if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert Vitanza", with a long, sweeping horizontal line extending to the right.

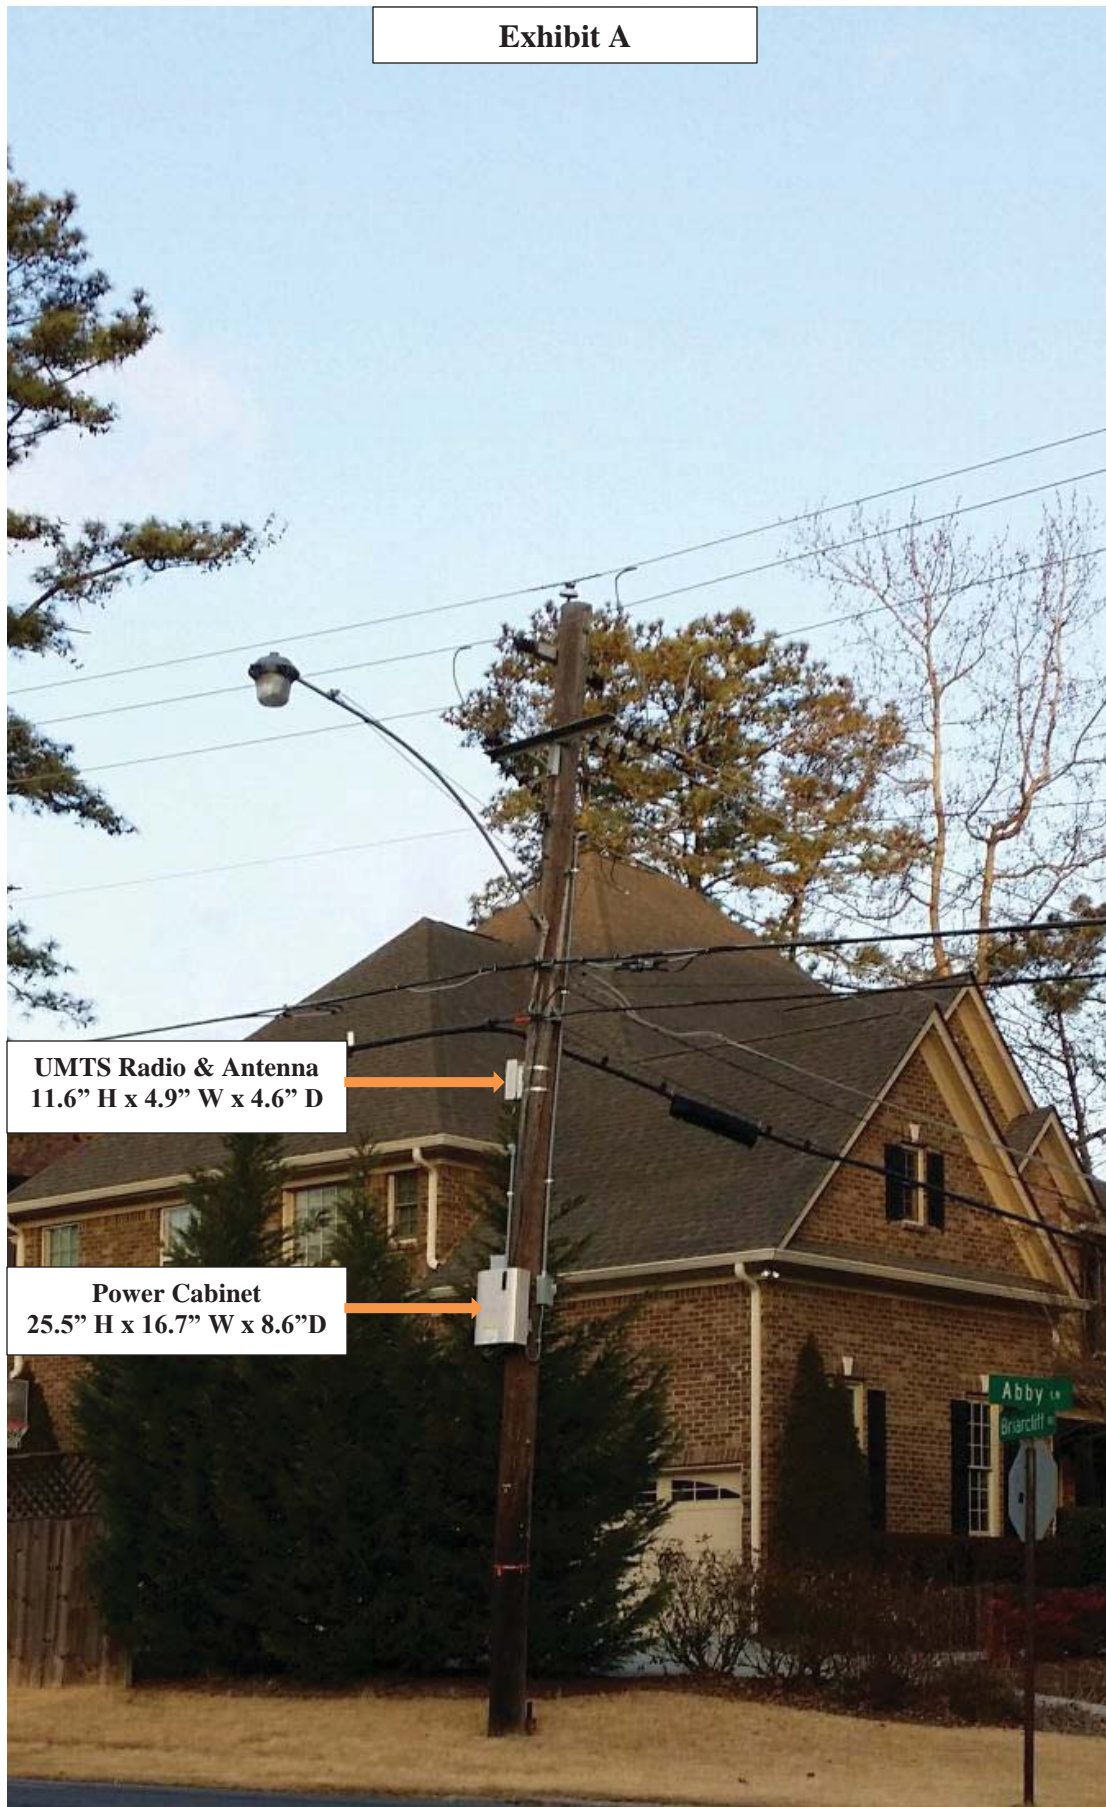

Robert Vitanza
